**2. Which question will your research address?**

*MUSIC THERAPY: How, through what mechanisms, and to what extent does music therapy affect the discomfort, disability, and quality of life associated with chronic pain in service members and/or veterans experiencing chronic pain?*

*ART THERAPY: How, through what mechanisms, and to what extent does art therapy affect emotional processing, self-regulation, and other symptoms of traumatic stress for service members and/or veterans?*

**3. Abstract: Briefly describe the RCT or large-scale prospective study you intend to propose, including the research design, population you will study, and intervention/strategy/practice to be investigated [500 words].**

**Lead PI Signature**

**Date (mm/dd/yy)**
